Our Cover

Members of the Rochester VHF Group and local clubs participated in the January 2019 VHF Contest to help commemorate the Rochester VHF Group's 70th anniversary. This photo was taken at the four grid squares east of Syracuse, New York. Rovers around the Great Lakes often travel in packs for contests because they're allowed to work others (and each other) multiple times from different grids. They set up in key spots and work other rovers who are circling the lake on the other side, in a practice known as "grid circling." [Jeff Jensen, N2MKT, photo]
